Zeme:

For stronger & healthier crops.

Silicon is poorly mobile in plants and when conventional silicon is applied to crops it binds locally after application and is not available to the plant for metabolic activity.

Zeme contains Levity's Si-X technology, a unique chemistry which aids active transport of silicon by crops. Zeme helps protect crops against damage from stress, giving stronger and more resilient leaves, stems and fruit.

APPLICATION RATES

Apply as a foliar spray within 200L/ha of water.

Cereals: Apply foliar at 1L/ha every 3-4 weeks.

Potatoes: Apply foliar at 1L/ha every 3-4 weeks.

Carrots: Apply foliar at 1L/ha every 3-4 weeks.

Peas and Beans: Apply foliar at 1L/ha every 3-4 weeks.

Brassicac: Apply foliar at 1L/ha every 3-4 weeks.

Leafy Vegetables: Apply foliar at 1L/ha every 3-4 weeks.

Soft Fruit: Apply foliar at 1L/ha every 3-4 weeks.

Apples: Apply foliar at 1L/ha every 3-4 weeks.

Maize: Apply foliar at 1L/ha every 3-4 weeks.

Oilseed Rape: Apply foliar at 1L/ha every 3-4 weeks.

Tomatoes, Peppers and Cucumbers: Apply foliar at 1L/ha every 3-4 weeks.

Ornamentals: Apply foliar at 1L/ha every 3-4 weeks.

Caution: Not compatible with acidic inputs. Jar test for compatibility and spray test on small area before wide-spread use.

Storage: Store indoors in a frost free environment, avoid exposure to temperatures below 5°C or above 30°C.

ANALYSIS

Nitrogen (ureic) 5%w/w (66.5g/L),
(water soluble K2O) 10% w/w (133g/L),
Silicon (SiO2) 21% w/w (279g/L).

HAZARD STATEMENTS

Signal word(s): Warning.

H315: Causes skin irritation.

H319: Causes serious eye irritation.

P262: Do not get in eyes, on skin, or on clothing.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P303 + P361 + P353: IF ON SKIN (OR HAIR): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.

P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
